

1.)

Sometimes when you think your life goes wrong
noone's there to say: hey carry on
confusion in your mind and the world is turnin' round
time to learn your first steps on the ground

2.)

look up to the sky, the clouds are grey
the first drops falling, flowing down the way
keep my hand and follow, let us runnin' down the street
trust yourself, that is what you need

Refrain:

Oh let it rain, let it rain
'til the sun is comin' out, shining again
Let it rain, let it rain
'til the sun is comin' out, shining again

3.)

Sometimes you will win, sometimes you loose
and you think your life is so confused
look into my eyes, listen faithful what I say
believe in me, you will find your way

Part

Let rain, let it rain, 'til the sun will shine again
Reach your hands to the sky, I'm shure you will survive
You can win, take your chance, if you loose try it again
Take my hands, hold them tight, don't be afraid in stormy night

4.)

The rain is pouring down, give me a smile
The sun will comin' out in a little while
We will stand together, against the storm of life
Ridin' on the wind we will survive
